HOC Global Solutions

Toronto, Canada

WFP: How long have you been in the industry?

FW: Well my Dad pulled me out of school on my 15th birthday and that's when it all began with a small carrier in England, Manchester Liners. Hard to believe that was 53 years ago.

WFP: Who or what do you most admire in business?

FW: I worked for another small carrier in Montreal, Cast Containers and the chairman, Klaus Glusing, and he put all sales people through the meat grinder on a daily basis but it made me the salesman that I am to this day.

WFP: What is the best piece of advice (business or otherwise) that you have been given?

FW: I had a teacher in high school who always said you only live once and you have to grab all the gusto you can in life, so far that attitude has worked great.

WFP: What hobbies do you enjoy (music, sport etc)?

FW: Current music but most of all, travelling.

WFP: What is your favourite movie?

FW: Pulp Fiction, probably watched it 50 times and can recite most of it.

WFP: What book are you reading at the moment?

FW: John Grisham, Rogue Lawyer.

WFP: If you had not become a forwarder what other career would you like to have followed?

FW: I think I would have liked to operate a Freight Network??

Please contact us if you would like to be our WFP Featured Member in the near future.

We would be happy to hear from you.

Please send us any information you would like included in our next newsletter!
Remember we are working for you!
